

## SCHEDULE OF SERVICE AND FEES

ELEMENTAL ANALYSIS		SINGLE	DUPLICATE	
	Carbon, Hydrogen, Nitrogen (all on same sample)	\$30.00	\$56.00	
	Carbon, Hydrogen	\$22.00	\$40.00	
	Nitrogen	\$22.00	\$40.00	
	Chlorine, Sulfur (each)	\$22.00	\$40.00	
	Iodine	\$45.00	\$85.00	
	Phosphorus, Bromine (each)	\$50.00	\$85.00	
	Fluorine, Oxygen (each)	\$50.00	\$100.00	
	Ash Determination (with H2SO4)	\$35.00		
	Air Sensitive Handling (under Nitrogen)	\$25.00		
	Vacuum Drying	\$3.00		

<sup>\*</sup>The results will be reported normally within three days.

## SAMPLES and PACKAGING

It is recommended that the samples be suitably packed to withstand handing through the mail system. In the case of solid materials, the sample will be assumed to be dry unless otherwise stated. A minimum of **5 mg of sample be sent per determination**. Liquid samples should be suitably protected by metal foil in the cap submitted in a screw cap vial. Volatile and/or air sensitive substances should be sealed in small break-open ampoules. All remaining sample will be returned.

## **SUBMISSION FORMS**

It is requested that the form be filled out completely, **one for each sample** with an associated ID number. Remarks should include any characteristics, if known, which may affect the analysis, e.g. volatile, air or moisture sensitive, etc. Be sure to list any and all known hazardous material. The submission forms should be included with the samples.

<sup>\*</sup>Samples returned will include a return postage charge.
